📍 BENGUERIR 102 RUE NOUR

EDUCATION

Specialized IT Technician in Software Development.

OFPPT

2020 - 2022 benguerir Score 14.9 / 20

Baccalaureate in Physical Science

Abdellah High School

01/2019 - 01/2020 benguerir

PROFESSIONAL EXPERIENCE

Internship and work at Caidat LABRIKYINE and Awrach:

Caidat LABRIKYINE 08/2023 - 01/2024 Benguerir

<https://github.com/AyyoubSghuri/CNIX-v2.0>

- Registration of citizens using their **CNIE** in the **RNP** to digitize data and for citizens to obtain their **IDCS (Civil and Social Digital Identifier)**.
- And **RSU** to obtain the score of families (**social state**)
- Developed software to convert images from **CNIE** format into data for **automation** and created a snipping tool for capturing and cropping specific areas for **OCR**.

Year-End Project at OFPPT:

OFPPT 07/2022 Benguerir <https://github.com/AyyoubSghuri/TailShine>

- Developed a web application using **Django DRF**, **ReactJS**, and **TailwindCSS** for an API platform that processes monthly API requests, including **Grammar API**, **Image to Text API**, and **Whois API**. This platform provides developers with essential tools to enhance their applications.

Internship at Province Rehamna:

Province Rehamna 01/2022 - 02/2022 Benguerir

<https://github.com/AyyoubSghuri/Django-Moroccan-cardid-scanner>

- Developed an application using Django for transferring and recording national ID card data (**CNIE**) utilizing **OCR** technology.
- The application processes client certificates using their national card identifier, records complete data and applications, and provides documents to provincial administrators.

PROJECTS

inPaste

Self-Taught <https://github.com/AyyoubSghuri/inPaste>

- Developed a **Pastebin Clone** website for quick and easy text sharing online. This project focuses on providing a **lightweight** and **anonymous paste-sharing** experience, allowing users to share text without requiring login or saving user data.

Django E-Commerce/Blog

Self-Taught <https://github.com/AyyoubSghuri/django-project-Blog-GiftcardShop>

- Developed a **Django** project integrates a **blog**, an **online shop** for selling gift card codes or combos, and a **search engine** for free courses on **Udemy**.

QR-Code Attendance Checker

Self-Taught <https://github.com/AyyoubSghuri/Data2QR>

- Developed software to generate **encrypted QR** codes from **Excel data** and scan them to **auto-fill** user details in a **Tkinter** interface for **check-in**.

SUMMARY

Accomplished Full Stack Developer with extensive experience in web development using Django and Django Rest Framework for backend, and ReactJS for frontend. Proficient in developing desktop applications with C#, Tkinter, and PyQt5. Strong background in computer vision using OpenCV and automation with Selenium and PyAutoGUI. Proven ability to deliver robust, scalable, and efficient solutions across various platforms and technologies.

LANGUAGES

Arabic: Native ●●●●●
English: Advanced ●●●●●
French: Intermediate ●●●●●

SKILLS

Programming Languages:

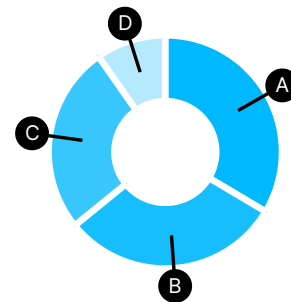

Python, Html, CSS, Java, Javascript, Sql, C#, JSON

Frameworks and Tools:

Django, Django DRF, Reactjs, ADO.net, ASP.net, OpenCV (Machine learning Framework), Tkinter, pyQT5, Tesseract, TailwindCSS, pandas, Numpy

Platforms: Heroku, Amazon AWS, Docker

SKILL PREFERENCES

- A Backend Development
- B Frontend Development
- C Software Development
- D 3D Modeling
